

SSA-414513: Information Disclosure Vulnerability in Mendix

Publication Date: 2022-04-12
Last Update: 2022-06-14
Current Version: V1.1
CVSS v3.1 Base Score: 5.3

SUMMARY

An information disclosure vulnerability in Mendix applications was discovered. The vulnerability could allow to read sensitive data.

Siemens has released updates for several Mendix Applications and recommends to update to the latest versions. Siemens is preparing further updates and recommends countermeasures for products where updates are not, or not yet available.

AFFECTED PRODUCTS AND SOLUTION

Affected Product and Versions	Remediation
Mendix Applications using Mendix 7: All versions < V7.23.31	Update your Mendix Project to V7.23.31 or later version and redeploy your application https://docs.mendix.com/releasenotes/studio-pro/7/
Mendix Applications using Mendix 8: All versions < V8.18.18	Update your Mendix Project to V8.18.18 or later version and redeploy your application https://docs.mendix.com/releasenotes/studio-pro/8/
Mendix Applications using Mendix 9: All versions < V9.11	Update your Mendix Project to V9.11 or later version and redeploy your application https://docs.mendix.com/releasenotes/studio-pro/9/
Mendix Applications using Mendix 9 (V9.6): All versions	Currently no fix is available See recommendations from section Workarounds and Mitigations

WORKAROUNDS AND MITIGATIONS

Product specific remediations or mitigations can be found in the section [Affected Products and Solution](#).

Please follow the [General Security Recommendations](#).

GENERAL SECURITY RECOMMENDATIONS

As a general security measure, Siemens strongly recommends to protect network access to devices with appropriate mechanisms. In order to operate the devices in a protected IT environment, Siemens recommends to configure the environment according to Siemens' operational guidelines for Industrial Security (Download: <https://www.siemens.com/cert/operational-guidelines-industrial-security>), and to follow the recommendations in the product manuals.

Additional information on Industrial Security by Siemens can be found at: <https://www.siemens.com/industrialsecurity>

PRODUCT DESCRIPTION

Mendix is a high productivity app platform that enables you to build and continuously improve mobile and web applications at scale. The Mendix Platform is designed to accelerate enterprise app delivery across your entire application development lifecycle, from ideation to deployment and operations.

VULNERABILITY CLASSIFICATION

The vulnerability classification has been performed by using the CVSS scoring system in version 3.1 (CVSS v3.1) (<https://www.first.org/cvss/>). The CVSS environmental score is specific to the customer's environment and will impact the overall CVSS score. The environmental score should therefore be individually defined by the customer to accomplish final scoring.

An additional classification has been performed using the CWE classification, a community-developed list of common software security weaknesses. This serves as a common language and as a baseline for weakness identification, mitigation, and prevention efforts. A detailed list of CWE classes can be found at: <https://cwe.mitre.org/>.

Vulnerability CVE-2022-27241

Applications built with an affected system publicly expose the internal project structure. This could allow an unauthenticated remote attacker to read confidential information.

CVSS v3.1 Base Score	5.3
CVSS Vector	CVSS:3.1/AV:N/AC:L/PR:N/UI:N/S:U/C:L/I:N/A:N/E:P/RL:O/RC:C
CWE	CWE-200: Exposure of Sensitive Information to an Unauthorized Actor

HISTORY DATA

V1.0 (2022-04-12):	Publication Date
V1.1 (2022-06-14):	Added fix for Mendix Applications using Mendix 7 and 8. Fix planned for Mendix Applications using Mendix 9 (V.9.6)

TERMS OF USE

Siemens Security Advisories are subject to the terms and conditions contained in Siemens' underlying license terms or other applicable agreements previously agreed to with Siemens (hereinafter "License Terms"). To the extent applicable to information, software or documentation made available in or through a Siemens Security Advisory, the Terms of Use of Siemens' Global Website (https://www.siemens.com/terms_of_use, hereinafter "Terms of Use"), in particular Sections 8-10 of the Terms of Use, shall apply additionally. In case of conflicts, the License Terms shall prevail over the Terms of Use.
