

## SSA-731239: Vulnerabilities in SIMATIC S7-300 and S7-400 CPUs

Publication Date: 2016-12-09  
 Last Update: 2018-01-24  
 Current Version: V1.4  
 CVSS v3.0 Base Score: 7.5

### SUMMARY

Two vulnerabilities have been identified in SIMATIC S7-300 and S7-400 CPU families. One vulnerability could lead to a Denial-of-Service, the other vulnerability could result in credential disclosure.

Siemens recommends specific mitigations. Siemens will update this advisory when new information becomes available.

### AFFECTED PRODUCTS AND SOLUTION

Affected Product and Versions	Remediation
SIMATIC S7-300 CPU family: All versions	Update to V3.X.14 to mitigate the first vulnerability (CVE-2016-9158), and follow recommendations from section Workaround and Mitigations for the second vulnerability (CVE-2016-9159). <a href="https://support.industry.siemens.com/cs/ww/en/ps/13752/dl">https://support.industry.siemens.com/cs/ww/en/ps/13752/dl</a>
SIMATIC S7-400 V6 and earlier CPU family: All versions	Update to V6.0.6 to mitigate the first vulnerability (CVE-2016-9158), and follow recommendations from section Workaround and Mitigations for the second vulnerability (CVE-2016-9159). <a href="https://support.industry.siemens.com/cs/de/en/view/109474874">https://support.industry.siemens.com/cs/de/en/view/109474874</a>
SIMATIC S7-400 V7 CPU family: All versions	Update to V7.0.2 to mitigate the first vulnerability (CVE-2016-9158), and follow recommendations from section Workaround and Mitigations for the second vulnerability (CVE-2016-9159). <a href="https://support.industry.siemens.com/cs/ww/en/view/109752685">https://support.industry.siemens.com/cs/ww/en/view/109752685</a>
SIMATIC S7-410 V8 CPU family: All versions only affected by CVE-2016-9159	Update to V8.2 and follow recommendations from section Workarounds and Mitigations. <a href="https://support.industry.siemens.com/cs/ww/en/view/109476571">https://support.industry.siemens.com/cs/ww/en/view/109476571</a>

### WORKAROUNDS AND MITIGATIONS

Siemens has identified the following specific workarounds and mitigations that customers can apply to reduce the risk:

- Apply protection-level 3 (Read/Write protection for CVE-2016-9159)
- Apply cell protection concept: <https://www.siemens.com/cert/operational-guidelines-industrial-security>
- Apply Defense-in-Depth concept: <https://www.siemens.com/industrialsecurity>

- For SIMATIC S7-CPU 410 CPUs: Activate Field Interface Security in PCS 7 V9.0, and use a CP 443-1 Adv. to communicate with ES/OS in order to mitigate vulnerability 2 (CVE-2016-9159).

## **GENERAL SECURITY RECOMMENDATIONS**

As a general security measure, Siemens strongly recommends to protect network access to devices with appropriate mechanisms. In order to run the devices in a protected IT environment, Siemens particularly recommends to configure the environment according to Siemens' operational guidelines for Industrial Security (Download: <https://www.siemens.com/cert/operational-guidelines-industrial-security>), and to follow the recommendations in the product manuals.

Additional information on Industrial Security by Siemens can be found at: <https://www.siemens.com/industrialsecurity>

## **PRODUCT DESCRIPTION**

Products of the Siemens SIMATIC S7-300 CPU family have been designed for discrete and continuous control in industrial environments such as manufacturing, food and beverages, and chemical industries worldwide.

Products in the SIMATIC S7-400 CPU family have been designed for process control in industrial environments. They are used worldwide, e.g. in the automotive industry, mechanical equipment manufacture, warehousing systems, building engineering, steel industry, power generation and distribution, pharmaceuticals, food and beverages industry, or chemical industry.

## **VULNERABILITY CLASSIFICATION**

The vulnerability classification has been performed by using the CVSS scoring system in version 3.0 (CVSS v3.0) (<https://www.first.org/cvss/>). The CVSS environmental score is specific to the customer's environment and will impact the overall CVSS score. The environmental score should therefore be individually defined by the customer to accomplish final scoring.

### Vulnerability CVE-2016-9158

Specially crafted packets sent to port 80/tcp could cause the affected devices to go into defect mode. A cold restart is required to recover the system. This vulnerability affects all SIMATIC S7-300 PN CPUs, and all SIMATIC S7-400 PN V6 and V7 CPUs.

CVSS v3.0 Base Score	7.5
CVSS Vector	CVSS:3.0/AV:N/AC:L/PR:N/UI:N/S:U/C:N/I:N/A:H/E:P/RL:T/RC:C

### Vulnerability CVE-2016-9159

An attacker with network access to port 102/tcp (ISO-TSAP) or via Profibus could obtain credentials from the PLC if protection-level 2 is configured on the affected devices. This vulnerability affects all listed affected products.

CVSS v3.0 Base Score	7.5
CVSS Vector	CVSS:3.0/AV:N/AC:L/PR:N/UI:N/S:U/C:H/I:N/A:N/E:P/RL:T/RC:C

## **ACKNOWLEDGMENTS**

Siemens thanks the following parties for their efforts:

- Zhu WenZhe from Beijing Acorn Network Technology Co., Ltd. for coordinated disclosure of the vulnerabilities
- Industrial Control System Cyber Emergency Response Team (ICS-CERT) for reporting the vulnerability and coordination efforts

## **ADDITIONAL INFORMATION**

For further inquiries on vulnerabilities in Siemens products and solutions, please contact the Siemens ProductCERT:

<https://www.siemens.com/cert/advisories>

## **HISTORY DATA**

V1.0 (2016-12-09):	Publication Date
V1.1 (2017-05-08):	Added fix information for CVE-2016-9158 in S7-300 CPU family; Clarified that vulnerability CVE-2016-9159 also affects Profibus
V1.2 (2017-07-21):	Added mitigation for CVE-2016-9159 in S7-CPU 410
V1.3 (2017-11-23):	Added update information for SIMATIC S7-400 V6PN
V1.4 (2018-01-24):	New advisory format; Added update information for SIMATIC S7-400 V7

## **TERMS OF USE**

Siemens Security Advisories are subject to the terms and conditions contained in Siemens' underlying license terms or other applicable agreements previously agreed to with Siemens (hereinafter "License Terms"). To the extent applicable to information, software or documentation made available in or through a Siemens Security Advisory, the Terms of Use of Siemens' Global Website ([https://www.siemens.com/terms\\_of\\_use](https://www.siemens.com/terms_of_use), hereinafter "Terms of Use"), in particular Sections 8-10 of the Terms of Use, shall apply additionally. In case of conflicts, the License Terms shall prevail over the Terms of Use.
